Art Unit: 1794

1. Claims 1 and 3-17 are rejected under 35 USC 102 (b) as being anticipated by the patent to Kobayashi et al. for the reasons of record.

Page 2

Since the hologram layer in Kobayashi et al. is discontinuous (see patterns 21 and 22), it is inherent that it is provided on less than the entirety of the underlying layer.

2. Claims 1 and 3-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over either of the patents to Tone et al. or Tajima et al. in view of the patent to Kobayashi et al.

The primary references teach thermal transfer sheets comprising a base material having transferable transparent, adhesive and hologram layers. The secondary reference teaches that it is conventional to employ transferable hologram layers on less than the entirety of the underlying layer. Consequently, it would have been obvious to one of ordinary skill in this art to provide the hologram layers of the primary references in pattern form on less than the entirety of the underlying layers.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce H. Hess whose telephone number is (571)-272-1525. The examiner can normally be reached on Flexible Work Schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Bernatz, acting SPE for Carol Chaney can be reached on (571)-272-1505. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
